

WOMEN IN AERONAUTICS AND ASTRONAUTICS

Founded in January 2015 at the University of Maryland, WIAA is committed to **growing a community** of students, faculty, and professionals through **technical and professional development, service, and outreach.**

Recruitment & Retention

Grow a network between current undergraduate and graduate students, faculty, alumni, and representatives from industry, government, and academia

Improve recruitment and retention of female students in the aerospace engineering department

Professional Development

Network with representatives from the aerospace industry

Tour local companies and organizations

Enhance student leadership and management skills through workshops and guest lectures

Technical Empowerment

Offer technical workshops for students to learn essential skills like programming, circuitry, 3D printing, CAD modeling, and more

Empower students with the knowledge and skills to excel in academic coursework, research, and internships

Outreach & Community Service

Participate in outreach activities and engage with members of the community to involve and encourage women in aerospace

Host WIAA Day each spring, where 100 high school girls learn about and engage in aerospace engineering

WOMEN IN AERONAUTICS AND ASTRONAUTICS

ENGAGEMENT OPPORTUNITIES

Host a site visit

Host a WIAA technical workshop

Reserve a booth at the WIAA Day information fair
