

Sikorsky

A United Technologies Company

THE DEPARTMENT of AEROSPACE ENGINEERING
Proudly Presents the

Sikorsky Aircraft Colloquium Series

Perspectives on Innovation

Presented by

Jonathan Hartmen

Disruptive Technologies Lead for Sikorsky Innovations

Jonathan currently serves as the Disruptive Technologies Lead for Sikorsky Innovations, the technology development organization of Sikorsky Aircraft Corporation. In this role, Jonathan champions the identification and maturation of game-changing technologies, and the creation of new processes for identifying and collaborating with innovative companies and organizations. His responsibilities include a wide range of roles, notably technical project management, small business acquisition, strategic planning, academic partnerships and talent acquisition. Since joining Sikorsky in 2009, his technical portfolio has included maturation of future vehicle concepts, next generation energy storage and use, dedicated unmanned systems, and autonomy-enabling technology.

Jonathan received his Bachelor of Science in Mechanical Engineering from Yale in 2009. He has been published and cited in various technical and industry publications. He actively serves on several non-profit advisory and governing boards, including the Charles A. and Anne Morrow Lindbergh Foundation, the Yale Science and Engineering Alumni Association and AeroInnovate.
